Cheetah M25 Rider™ Laser Jammer

Motorcycle M25 Laser Detector and Jammer

- Rated #1, Cheetah M25 Rider, dual laser modules provide 360 motorcycle defense
- Alerts and jams to all laser jammers, front and rear
- Wireless alerts, laser alerts are wirelessly sent to your helmet
- Optional Wireless alerts from Bel STi Driver or Valentine One radar detectors
- Water tight fittings work in any weather

DOT bans the use of radar detectors in commercial trucks. Virginia/Wash. DC bans the use of radar detectors. MN, CA and UT ban the use of laser jammers. Our products are road certified for performance by Speed Measurement Laboratories, neither company which condones speeding. Cheetah M25 is a trademark of SpeedCheetah, England.

Motorcycle Laser Detection and Jamming

Harley Davidson, BMW, Suzuki, Honda Goldwing, Kawasaki, all motorcycles worldwide

M25 Rider

#1 Motorcycle Laser Jammer w/ Wireless Helmet Alerts

Cheetah M25 Motorcycle Laser Detector and Laser Jammer

A laser gun can record your speed in less than two tenths (0.2) of a second, so even if the best radar/laser detector alerts you, it is too late to react since your speed has already been recorded. The Cheetah M25 laser jammer stops police laser from working, giving you valuable time to adjust your speed if you need to. Using speed trap alerts effectively on a motorcycle has always been difficult...until now.

The Cheetah M25 motorcycle laser jammer combines WIRELESS HELMET ALERT, watertight fittings and a Blinder M25 Laser Jammer modified especially for motorcycles. If you like the Bel STi Driver, Passport 9500i or Valentine One, each of these best radar detectors can be used to send wireless radar alerts to your helmet. This motorcycle laser jammer is designed for Harley Davidson motorcycles, Honda cruisers, BMW, Kawasaki motorcycles and

others. Don't worry about that laser gun aimed at you. The Wireless Helmet Alert is battery operated with a typical 40 hours ride time. It is motion sensitive and switches itself off 10 minutes after the jammer is switched off and no movement is detected. Get protected by blanking the laser gun until you adjust your speed. Combine the Cheetah M25 Laser Jammer with the Valentine One radar detector, Beltronics STi Driver or Passport 9500ix radar detector for a complete motorcycle radar detector, laser detector and laser jamming system.

Optional: The Valentine One Radar Detector + the Wireless Alert from the Valentine 1 to the Helmet Wireless radar laser alert; all combined into one complete radar laser alert system for your motorcycle.
