**Best in Test**  
Radar, Laser & Photo  
Countermeasures

The **Passport SR7 Remote, Radar Detector, \$1099.95** is an excellent, high performance, windshield mounted radar detector for X, K, Ka radar + laser detection. It is 100% invisible to VG2 and VG4 RDD (radar detector detectors). Front detection from the grille area is provided with a red display, power on/off, audio and visual alerts. When upgrading to the SR7 Plus, the laser detection is replaced with ZR3 laser shifters, which provide two Laser Shifters in front and one on the rear license plate.

### Features

- Custom-installed, X, K Ka radar and laser detection
- EZ-Programming allows instant customization
- 3 High Resolution display modes plus frequency display
- Ultra-bright Matrix Display with 280 LEDs
- Multiple high-performance laser sensors
- Completely immune to VG-2 and VG-4 "radar detector-detectors"
- Escort SRX with ZR3 Laser Shifting is optional, as shown right.**

### Comes Fully Equipped

Passport SR7 Plus comes complete with a comprehensive owner's manual, installation instructions, front mounted radar antenna, front mounted laser sensor, rear mounted laser sensor, in-car display controller, remote mute button, AutoSensitivity mode automatically reduces false alarms 12-volt interface with modular connections, complete wiring harnesses, and mounting hardware.

**Radar Range:** The Passport SR7 Plus uses a "Varactor" radar receiver to provide excellent detection range on police radar; conventional and "instant-on" radar, X-Band, K and Ka superwide radar bands. Digital Signal Processing (DSP) provides maximum range, with minimum false alarms.

**3 High-Resolution Meter Modes:** The Passport SR7 Plus provides 3 types of meter displays: standard bar graph, exclusive ExpertMeter™, and our new SpecDisplay™. In ExpertMeter™ mode the Passport SR7 can identify band and relative signal strength on up to radar 8 signals simultaneously. Or, choose our new SpecDisplay™ and Escort SR7 Plus will show you the actual frequency of the radar signal.

**New Reprogrammable Microprocessor:** Passport SR7's on-board computer can be reprogrammed to detect new radar and laser threats, making it a solid investment.

**New Advanced EZ-Programming:** Passport SR7 is ready to use right out of the box. However, you can also instantly customize it for your unique driving preferences. Programmable options include Power-On indication, Meter type, AutoMute, Brightness level (including full dark mode), two levels of Audio tones, and selectable radar and laser bands. Simply hold both buttons to enter the Program Mode, and quickly review or change your settings. (Your preferred settings are maintained in memory, even when the Passport SR7 is turned off or unplugged.)

**Mute and AutoMute:** Patented Mute and AutoMute eliminate annoyances from long radar encounters.

**3 Levels of Brightness Control:** Choose between Dim, Medium, or Max brightness levels, or full dark mode for discreet night driving.

**SRX with ZR3 Laser Shifting, \$1599.95**

For those who want or need a more hidden or fully integrated installation, a single bi-color LED (included) may be installed in-dash, allowing the display controller to be "tucked" under the dash.

**Standard SR7 without Laser Shifting, \$1099.95**

**Blinder M25 & M45 Laser Jammer**    **Bel STi DRIVER**    **Valentine One, V1 Remote**    **Escort Passport 9500i**
