PROWLER Remote™ System, PRS1-STiR-360

Active Laser Detection and Jamming; Photo Detection; X, K, Ka radar detection

- Blinder M45 - 4 Laser Jammers - hidden grille install
- Bel STi-R (2) Remote Radar Detectors - 1 front, 1 rear, hidden install
- Blinder M25 - 2 Laser Jammers - hidden rear Bumper install
- Cheetah C100 - Photo Speed Camera Detector - World Wide GPS
- Voice Alerts to Radar and Laser Speed Traps
- Total RDD invisibility - Sport Cars, Passenger Cars, Small SUVs, Trucks, large SUVs

DOT bans the use of radar detectors in commercial trucks. Virginia/Wash. DC bans the use of radar detectors. MN, CA, NB, TN, VA and UT ban the use of laser jammers. Our products are road certified for performance by Speed Measurement Laboratories, neither company which condones speeding. Bel STi-R is a trademark of Beltronics, Ohio, USA. Blinder is a trademark of Blinder, Denmark, a partner of 1stRadarDetectors.

BEST in TEST, 360 DEGREE, Radar Detection, Photo Alert, Laser Jamming

If you are traveling down the highway, and are coming over a hill, is there a hidden radar speed trap waiting for you?

The Bel STi Driver and STi-R Remote radar detectors are absolutely superb at detecting those hidden radar traps, as you come over a hill top or around a blind curve. You get the alert before they can detect your speed!

Two STi-R Remotes, Front & Rear Blinder M45 + M25 Laser Jammers, Front/Rear Cheetah C100 Photo Camera Detector

Our PROWLER Remote™ System, PRS1-STiR-360™ provides 4 high performance hidden, solid state laser jammers, combined with two Bel STi-R Remote radar detectors, hidden behind the bumpers or behind the grille; combined with the Cheetah C100 Photo Speed Gun Detector. The BEL STi-R Remote is **totally invisible to all forms of Radar Detector Detector (RDD)** used anywhere in the world. These two STi-R remotes are the most advanced, 360 degree protection available, and can be programmed for L, X, K, Ka superwide, POP3, Instant On; or programmed for Euro/Asian drivers with L, K, Ku, Ka Narrowband, Instant On, Dual POP3. STi-R is 100% invisible to VG2, VG4, Spectre II, III, IV, and Stalcar RDD used in AU and NZ. Cockpit displays plus audio, visual, VOICE alerts, power on/off.

The **Blinder M45 Laser Jammer and Blinder M25** are #1 in the world to defeat/detect every known laser gun. Four laser jammer modules are hidden in the front grille and two laser jammer modules are hidden on the left/right of the rear license plate. The M45 alerts you, determines which laser gun is being aimed at you and blocks the laser gun speed, front and rear to give you time to adjust your speed, before they can read it, after you shut the Blinders off. **After the driver safely corrects their speed, we recommend the driver to turn the jammer off allowing your adjusted speed to be detected. Now you appear like an average driver.** Once safely through the radar/laser trap, turn the Laser Blinder power back on and continue your trip. Each product has aced the tough, Speed Measurement Lab tests held every year in El Paso, TX. Only 1stRadarDetectors and our authorized distributors offer this superb level of radar/photo detection and laser jammer countermeasures system.

The front and rear STi-R Remote radar detectors are superb, alerting to front, rear and side radar traps; are electronically invisible; physically invisible from view and warns the driver with audio, visual and voice alerts to check their speed. The M45 and M25 warns of laser detection, blocks the laser gun speed, front and rear to give you time to adjust your speed, before they can read it, after you shut the Blinders off. **After the driver safely corrects their speed, we recommend the driver to turn the jammer off allowing your adjusted speed to be detected. Now you appear like an average driver.** Once safely through the radar/laser trap, turn the Laser Blinder power back on and continue your trip. Each product has aced the tough, Speed Measurement Lab tests held every year in El Paso, TX. Only 1stRadarDetectors and our authorized distributors offer this superb level of radar/photo detection and laser jammer countermeasures system.
